PROFILE SUMMARY

Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React, Node.js) with strong experience building scalable, secure, and high-performance web applications. Proficient in RESTful APIs, modern frontend architectures, and database design, with a focus on clean code, performance optimization, and seamless user experiences.

SKILLS

- ❖ **Languages:** JavaScript, C & C++, Java
- ❖ **Frontend:** HTML, CSS, React.js, TailwindCSS, Axios
- ❖ **Backend:** Express, Node.js, Spring Boot
- ❖ **Database:** MySQL, SQL Server, MongoDB
- ❖ **Tools:** Git & GitHub, VS Code, Postman

EDUCATION

- ❖ Computer Science and Engineering | Patel College Of Science and Technology, Bhopal
(Aug '21 – Jun '25)
- ❖ XII (BSEB) | +2 M R Giri High School, Andhratharhi 2020

PROJECTS

- ❖ **Projecto** – Project Management System [Live Demo](#) | [GitHub](#)
 - Developed a full-stack Project Management System using React.js, Node.js, Express.js, and MySQL to manage projects, tasks, documents, notifications, user roles, and reporting with role-based access control and real-time updates.
 - Enabled efficient tracking of team progress through dashboards, automated email notifications, analytics reports, and export features, enhancing transparency, collaboration, and productivity across projects.
- ❖ **Musicademy** – Interactive website for a Music Academy [Live Demo](#) | [GitHub](#)
 - Developed a modern, scalable React application using Aceternity UI (a TailwindCSS-based component library) to deliver highly interactive, consistent, and responsive interfaces.
 - Implemented a future-proof, component-driven architecture with efficient routing via React Router DOM, easy scalability, and smooth user experience across the application.
- ❖ **Blogsmith** – A blog app [Live Demo](#) | [GitHub](#)
 - Built an industry-grade React application integrated with Appwrite as the backend service, utilizing React Hook Form for high-performance form handling and Redux Toolkit for predictable, scalable state management.
 - Implemented a clean, modular architecture with reusable components, secure API interactions, and optimized data flows, ensuring a robust, maintainable, and production-ready application experience.

POSITION OF RESPONSIBILITY

❖ **Coordinator | The Alumni Association – 2024, PCST**

(Apr '24)

Coordinated the successful organization of the Alumni Association Event 2024, facilitating communication between alumni, faculty, and students.
